# POSTER CONTEST

Sponsored by South Central Iowa Solid Waste Agency

**Winning entries will be printed in the 2018 SCISWA Calendar**

The contest is open to Grades 3, 4, and 5 in Lucas, Marion, Monroe and Poweshiek Counties

## CONTEST PROGRAM AND PRIZES:

- All participants will receive a Smencil!
- 24 winning posters will be printed in the calendar and receive a t-shirt and a package of colored Smencils!
- 1 Grand Prize winning poster will be printed on the calendar cover and receive a t-shirt, colored Smencils, \$100, and recycling containers for your school!
- Judging will be done by the SCISWA Core Team and scored on originality, creativity, and promotion of South Central Iowa Solid Waste Agency.
- Winning entries will be announced Monday December 4 to schools and on the SCISWA website. Calendars and prizes will be distributed to each participant in December.

## CONTEST RULES:

- Contest theme: "SCISWA: 100 Years from Now"
- Poster size: 8 ½" by 11" white paper in horizontal or landscape position. Crayons, markers, and paint are acceptable.
- Art work: original work, this is your time to be creative! Must include the slogan "SCISWA:100 Years from Now"
- Entry form (below, can make extra copies): Fill out completely, cut out, and attach to the back of your poster
- Deadline: post marked or dropped off by Friday November 10, 2017
- For more information: visit [www.sciswa.org](http://www.sciswa.org) or email [jframpton@sciswa.org](mailto:jframpton@sciswa.org)

## CONTEST THEME: "SCISWA: 100 Years from Now"

Part of our job at SCISWA is to ensure our communities have disposal options well into the future. Recently SCISWA redesigned the landfill to allow for 100 more years of solid waste disposal at our site, which made us wonder what the site might be like 100 years from now! As technology and equipment develop and waste management methods evolve it is likely that SCISWA will look and operate very differently in 100 years. But how? Will we use robots? Flying trucks or equipment? Or underground trash tunnels and no garbage trucks at all? What will we do with the garbage: shoot it with a laser? Burn the waste to create energy? Or build a digester to eat the garbage? Or maybe the landfill is replaced with a material recovery facility where all the garbage is sorted for recycling? As crazy as these ideas sound, they are real waste management technologies in use today! **Draw a picture of the future SCISWA landfill with the caption "SCISWA: 100 Years from Now." Contest entries should be colorful, attractive, and imaginative!**

**Good luck: we can't wait to see your vision of the future of solid waste!**

### ENTRY FORM

2017 SCISWA POSTER CONTEST

STUDENT NAME: \_\_\_\_\_ GRADE: \_\_\_\_\_

SCHOOL: \_\_\_\_\_ TEACHER: \_\_\_\_\_
